

Club Development Report
January 3, 2010
Kevin Maloy

- **Communication**

- As stated in the coaches' report, we will have the ability to communicate with a larger group of coaches as opposed to just sending email to head coaches like we currently do. This will allow us to keep everyone in the loop as to what is going on and eliminate the "middle man" and not have to rely on anyone to forward our communication.
- We will also have the same ability for Club Presidents. A list can be produced once the club registrations are complete and allow us to communicate with at least club presidents. We might be able to expand this into club boards once we establish the communication with club presidents.

- **Others**

- I reported about the "Maryland Plan". Creating an idea of our own can help us develop areas that we feel need to be stressed.
