The Financial Report was approved. The treasurer recommended the dues remain at \$125.00/LSC for 2007. The Zone approved this recommendation. The checks should be made out to USA Swimming Inc., and sent to M. B. Hall, 43924 Riverpoint Dr., Leesburg, VA 20176. (Our new secretary-treasurer). These are due now - make sure the checks are made out to USA Swimming Inc. They go to the Secretary-Treasurer first so she can record what comes in. She will send them on to the National Office.

Report of Officers

Background checks for coaches are ready to go. They will start this month. Coaches will be the first to have this done as they are the ones who have the most involvement with the children. It will probably progress to more people later on. TC logiQ, Inc. is the provider. Info about the company is available on their website at www.tclogiq.com

The Board approved the budget for 2007, and it will now go on to the House of Delegates for final approval. The USOC would like the USA Swimming Board of Directors to approve the budget, not the House of Delegates. This may happen in the future.

- The YMCA has adopted our technical rules.
- Renovations at Headquarters are under way. This is the building where the flume was originally. New office space will be available.
- Golden Goggles Awards will be at the Beverly Hills Hilton on Nov. 19, 2006.

Report of Meet Coordination Committee-- John Ferrari - MD John stated that everything went well this year.

Report of Zone Officials Committee -- Jamy Pfister stated that she can identify officials that can help run zone and sectional meets. They can also help with the process to certify officials at the N2 and N3 level. Get in touch with her a few months before the meet to make arrangements.

Report of Eastern Zone Sport Development Consultant - Ira Klein -- Ira has moved on to the above job.

Peter Clark, from Lancaster, PA is our new Sport Development Eastern Zone Consultant. Ira introduced Peter. Ira will help Peter get started. Peter said he was looking forward to helping all of us.

Ira discussed a race analysis pilot project that will be done at the Sectional level. They would like to do the top three heats of prelims and finals. It will store all the data on each athlete. USA Swimming will provide the software and a staff person to train the operators and to interact and educate the coaches. Volunteers are needed - 8 operators for each final session. Every operator must train at one preliminary session before they

can work at a final session. They must have their own laptop computer. They will be permitted to train by capturing race analysis data for their own program or LSC. He will need a list of volunteers by June 1, 2007.

Each LSC General Chairman was given a binder with lots of information specific to each LSC. This also had National information in it.

He stated that there are funds available for meets having swimmers with disabilities in them.

Technical Planning - John Hirschmann -- John said the committee met last night (13th).

Spring SC Sectionals - no action items - changes were addressed at the May 2006 Zone meeting.

Summer LC Sectionals - Technical recommended a revised order of events.

New order of events - 4 day format

Thursday - 200 IM., 100 free, 100 breast, 1500W/800M free

Friday - 200 free, 100 fly, 400 IM, 400 free relay

Saturday - 200 fly, 100 back, 400 free, 800 free relay

Sunday - 200 back, 50 free, 200 breast, 800W/1500M free, 400 medley relay

A motion was made, seconded and passed to adopt this.

Technical reaffirmed the goal previously established in May to have 50's and 100's with ten heats, 200's and 400's with eight heats, 800 and 1500 - six/seven heats. Goal will be to have approximately 70% of swims with conforming time (LCM) 30% from non-conforming (SCM-SCY) SCM QT's will be consistent with LCM after adjusting for additional turns.

Summer Long Course Zones - A motion was made, seconded and passed to rework the summer time standards so there are no more than seven heats in any event that had more in 2006. A limited number of events having very few entries (3 heats or less) will be reviewed to see if entry times should be relaxed modestly.

A motion was made, seconded and passed to flip the 200 medley relay (now day 2) and the 400 medley relay (now day 4) for 10 & Unders only. This is based on the actual Order of Events swum in 2006. The zone manual will reflect the order of events with this one amendment. Other possible changes to Order of Events were not endorsed by the Technical Committee.

Spring Short Course Zones

Technical recommended that the Zone return to prior practice of allowing each LSC to only enter two swimmers in an event. The alternative qualifying times adopted in May

will not be used. A motion was made, seconded and passed that stated the following: Entry rules for conducting spring meets will be the same as the meet was conducted in April 2006.

At the spring meeting some of the events order were changed, as well as adding some relays to the program, This new order for events, including the added relays will be swum at the meet in 2007 - the zone manual for short course has the new order of events in it.

In order to make TP work easier to follow I am continuing with what went on Sept. 15th and the meet bids and the meets awarded.

Isabelle Fraser - Secretary-Treasurer

Many thanks for all the help received in the 26 years that I have been Zone Secretary-Treasurer. This includes all the party help from many people way back when we ran those fun parties. Many people have come and gone but they sure have not been forgotten over the years. Thanks to the different Zone Directors and in the past few years John Hirschmann, that have helped me compile the minutes after the meetings. It is not always easy to hear what is being said. I wish the Zone all the best. I will miss you all. I am not going away - will still be at convention for a few years, so will keep in touch.
