

Registration Report

February 28, 2006

Athletes	5545	-325
Non-Athletes	924	- 46
Clubs	44	- 3

It would appear that we will not meet or surpass the registration for 2005. Of the 44 clubs, 18 had an increase of swimmers and 24 did not. I didn't count the new team that came in from PV. They seem to be doing very well with a membership of 59. WPAC came in after not registering for several years, but have only 4 swimmers. There is a team in the southwest that wants to join. They are waiting to get their coach certified and all the requirements that are now in place for a new club. They had hoped to get started for long course, but it may not be until Sept. Seasonal membership will start this month, at a date to be determined. The program runs for 150 days, and will cost \$30.50.
